Called to Love as God Loves - with Angela Hazebroek

Saturday, 1 June, 9.30am - 3.30pm

Pierre Teilhard de Chardin's philosophy of love has great implications for evolving life. It affects how we understand nature, creation, humanity and God. This, in turn, influences our values and choices.

This reflection will allow you to focus on the countless ways that God loves you and all creation. There will be an opportunity to connect mindfully with Earth and meditate on the inter-connectedness of all living beings.

Befriending the Shadow of Anxiety and Fear

- with Susan Pollard rsj

Saturday, 15 June, 10.00am - 3.00pm

We will explore how "surviving" anxiety and fear can bring individuals to another awareness of inner resources.

Our goal is allowing the positive movement of these emotions for psychic development or soul's emerging. Through anecdotal and case studies we will consider how anxiety and fear are related to both destruction and to creativity and how dreams provide hints for our well-being.

"Emotion, incidentally, is not an activity of the individual but something that happens to him (her)."

C.G. Jung (CW9ii, par.15)
